MEET THE TEACHER/WELCOME BACK TO SCHOOL EVENT

Our Meet the Teacher/Welcome Back event Friday evening was a resounding success. Whilst our Meet the Teacher was less formal than in previous years, many parents took the opportunity to drop in, see their child's classroom and say hi to the class teacher/s. We would like some feedback about this change. We are requesting two simple comments, positives and suggested Improvements, If you would like to give us some feedback on the Meet the Teacher part of the evening, please use the link.

[Feedback](#)

A huge thank you to our P and C, and parent helpers, for the organisation and running of the Welcome Back to School evening. The activities kept everyone engaged. It was a very hot afternoon, but that didn't seem to stop anyone from having a wonderful time.

P&C MEETING

Whilst on the subject of P and C, a reminder that the next P and C meeting is Monday 11 March at 7pm in the staffroom. All are welcome to come and be part of this wonderful group.

NAPLAN

NAPLAN begins next week for students in Year 3 and Year 5. The assessments will be held from Wednesday 12 March until Friday 21 March. During this time attendance for these students is particularly important. NAPLAN assesses students in Reading, Writing, Spelling and Grammar and Numeracy. It gives us information on strengths and areas for improvement, supporting the school assessment schedule.

ZONE SWIMMING CARNIVAL

Good luck to those students competing in next week's Zone Swimming Carnival. I know we will be well represented in speed and sportsmanship.

ATTENDANCE MATTERS

It's always wonderful to have our students in classrooms, ready to engage and learn. Our teachers and school staff are committed to fostering growth and opportunity, and we are here to work with you to support your child to reach their full potential.

Consistently going to school has countless benefits – from learning, to creating social connections and improving wellbeing through access to support and quality education.

Students are required to attend school every day, whether it's the first or last day of the term, Mondays, Fridays or days dedicated to sports carnivals, school excursions and incursions.

Principal Report

As we look ahead to the remainder of the school year, I'd like to remind our school community that we are here to work with you to support your child to thrive. We know that families experience a variety of challenging circumstances, and we are committed to working with you to address any barriers to regular attendance.

If your child is absent from school, please let us know why as soon as possible, even if it's just a few minutes at the start or end of the school day. Of course, there will be times when your child is unable to be at school, like when they are unwell. Medical appointments should take place outside school hours where possible, and family holidays should be taken in term breaks.

If your child is feeling anxious about coming to school and you need support, please reach out to your child's teacher or to me directly. There are also helpful resources for parents and carers on the [NSW Department of Education website](https://www.nsw.gov.au/parenting).

Thank you for being a part of our school community and for partnering with us to ensure students access the endless benefits of regular school attendance.

WELLBEING

We use The Get Happier Project to overarch our wellbeing programs at Beaumont Hills Public School. The Get Happier School, created by Ivan Honey and based on William Glasser's Choice Theory, is an innovative approach to education that combines the latest research in practical and positive psychology with effective teaching techniques. The program is designed to create a whole-school approach where children are taught the skills and mindsets they need to. The focus is on developing emotional intelligence, resilience, self-esteem, and problem-solving skills essential for their future success.

Each newsletter I will share some of the important ideas of The Get Happier project.

2025 NAPLAN - Year 3 and 5

The National Assessment Program - Literacy and Numeracy (NAPLAN) is a literacy and numeracy assessment that students in Years 3, 5, 7 and 9 sit each year. The NAPLAN test window begins on Wednesday 12 March 2025 and finishes on Monday 24 March 2025. All students in Year 3 and 5 are required to bring headphones for their test sessions. An email with the proposed schedule has been sent to all of our Year 3 and Year 5 families. Please read the attached NAPLAN information for parents and carers, for further information.

NAPLAN 2025

Information for parents and carers

Why do students do NAPLAN?

The National Assessment Program – Literacy and Numeracy (NAPLAN) is a literacy and numeracy assessment that students in Years 3, 5, 7 and 9 sit each year. It is the only national assessment all Australian students have the opportunity to undertake.

As students progress through their school years, it is important to check how well they are learning the essential skills of reading, writing and numeracy.

NAPLAN assesses the literacy and numeracy skills that students are learning through the school curriculum and allows parents/carers to see how their child is progressing against national proficiency standards.

NAPLAN is just one aspect of a school's assessment and reporting process. It does not replace ongoing assessments made by teachers about student performance, but it can provide teachers with more information about students' educational progress.

NAPLAN also provides schools, education authorities and governments with information about how education programs are working, and whether young Australians are achieving important educational outcomes in literacy and numeracy.

Your child will do the NAPLAN tests online

Online NAPLAN tests are designed to provide precise results and are engaging for students. The tests are tailored (or adaptive), which means that each test presents questions that may be more or less difficult depending on a student's responses. This helps students remain engaged with the assessment.

Tailored testing allows a wider range of student abilities to be assessed and measures student achievement more precisely. A student's overall NAPLAN result is based on both the number and complexity of questions they answer correctly. Your child should not be concerned if they find questions challenging; they may be taking a more complex test pathway.

All Year 3 students will continue to complete the writing assessment on paper.

What does NAPLAN assess?

NAPLAN assesses literacy and numeracy skills that students are learning through their regular school curriculum.

Students sit assessments in writing, reading, conventions of language (spelling, grammar and punctuation) and numeracy. The questions assess content linked to the Australian Curriculum: English and Mathematics.

All government and non-government education authorities contribute to the development of NAPLAN test materials.

To find out more about NAPLAN, visit nap.edu.au.

Participation in NAPLAN

NAPLAN is for all Year 3, 5, 7 and 9 students. ACARA supports inclusive testing, so all students have the opportunity to participate in the National Assessment Program.

Information on adjustments available for students with disability who have diverse functional abilities and needs is provided in the [National protocols for test administration](#).

Schools should work with parents/carers and students to identify, on a case-by-case basis, reasonable adjustments required for individual students with disability to access NAPLAN.

To help inform these decisions, you may consult the National protocols for test administration (linked above), [NAPLAN public demonstration site](#), the [Guide for schools to assist students with disability to access NAPLAN](#), and our [series of videos](#) where parents/carers, teachers and students share their experiences in using NAPLAN adjustments.

In exceptional circumstances, a student with a disability that severely limits their capacity to participate in the assessment, or a student who has recently arrived in Australia and has a non-English speaking background, may be granted a formal exemption.

Your school principal and your local test administration authority can give you more information on adjustments for students with disability or the process required to gain a formal exemption.

Deputy Principal News

What if my child is absent from school on NAPLAN test days?

Where possible, schools may arrange for individual students who are absent at the time of testing to complete missed tests at another time during the school's test schedule.

What can I do to support my child?

Students are not expected to study for NAPLAN. You can support your child by letting them know that NAPLAN is a part of their school program and reminding them to simply do their best. Some explanation of NAPLAN is useful to help students understand and be comfortable with the format of the tests; however, it is not necessary for parents/carers to do this. Teachers will ensure students are familiar with the types of questions in the tests and will provide appropriate support and guidance.

ACARA does not recommend excessive preparation for NAPLAN or the use of services by coaching providers.

See the types of questions and tools available in the online NAPLAN assessments at [NAP – Public demonstration site](#).

How is my child's performance reported?

From 2023, NAPLAN results are reported against proficiency standards. There is a standard for each assessment area at each year level. Proficiency standards provide clear information on student achievement. They are set at a challenging but reasonable level expected of the child at the time of NAPLAN testing, based mainly

on what has been taught in previous years of schooling. Student achievement is shown against 4 levels of proficiency: Exceeding, Strong, Developing and Needs additional support.

A NAPLAN individual student report will be provided by your child's school later in the year. If you do not receive a report, you should contact your child's school.

How are NAPLAN results used?

- Students and parents/carers use individual results to discuss progress with teachers.
- Teachers use results to help identify students who need greater challenges or extra support.
- Schools use results to identify strengths and areas of need to improve teaching programs, and to set goals in literacy and numeracy.
- School systems use results to review the effectiveness of programs and support offered to schools.
- The community can see information about the performance of schools over time at [myschool.edu.au](#).

Where can I get more information?

For more information about NAPLAN:

- contact your child's school
- contact your local test administration authority at [nap.edu.au/TAA](#)
- visit [nap.edu.au](#)

To learn how ACARA manages personal information for NAPLAN, visit [nap.edu.au/naplan/privacy](#).

NAPLAN timetable

The NAPLAN test window is 9 days. This is to accommodate schools that may not have the capacity to complete the tests in a shorter time frame. **The NAPLAN test window starts on Wednesday 12 March 2025 and finishes on Monday 24 March 2025.** Schools will schedule the tests as soon as possible within the testing window, prioritising the first week.

Ethics committee approval number: 2023/349

Participate in a research study for parents and caregivers

Online telehealth parenting program – families can participate from anywhere in NSW

Who can participate?

- Parents/caregivers (fathers, mothers, grandparents, foster and kinship carers) of children aged between 3-years and 9-years 11 months.

What is the study about?

- This study is called *Measuring Change in Parenting Programs*. It offers an evidence-based 8-10 session parenting program, delivered via telehealth, to help parents manage their child's challenging behaviours. This study examines the effectiveness of measure completion at different time points in the program.
- All families taking part in the study will receive an 8-10 session parenting program and will complete measures about their child and family before and after the program, and again after three months. In addition, families will be randomly allocated to either complete additional weekly measures before and after sessions or to not complete these measures.

What does the parenting program involve?

This evidence-based parenting program is 8-10 sessions and provides parents with evidence-based strategies to manage challenging child behaviour, promote positive parent-child interactions, and support parental teamwork.

- This research will help us find out how often to measure progress and change in parenting programs, so we can better support parents/caregivers.

How do I get involved?

- Contact the researchers at the University of Sydney to find out more about this study. Email your enquiry to scbrc@sydney.edu.au or call (02) 9114 4326.

CHESS!!

Learn to be a chess champion! Coaching for students at Beaumont Hills Public School (Kellyville) is held on Tuesdays from 1:10pm to 2:00pm, starting on 11 February 2025.

Learning and playing chess helps children develop their logical thinking and problem solving skills, improves their concentration and focus, while also being a great source of enjoyment. Activities include group lessons on a demonstration chess board or interactive whiteboard, puzzle solving and fun practice games.

Students earn merit awards by making checkmates, or by displaying skills and positive qualities, which all good chess players strive to develop.

Each student in the Chess program will also receive access to Chess Squad <https://www.chesssquad.com/> which is an online teaching/playing platform.

If your child is interested in taking part in the class, please email office.sydneyacademy@gmail.com for an enrolment form. For all enquiries, please contact Sydney Academy of Chess on (02) 9745 1170.
