

BINYA PUBLIC SCHOOL

Term 3, Week 8

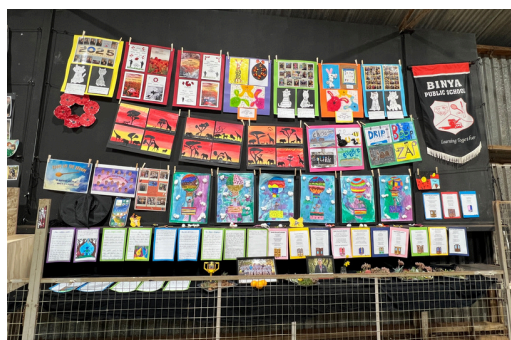

11 September 2025

Our students were proud to showcase their learning at the Barellan Show, with a school display of classwork and many entries in the pavilion competitions. From rock painting to finger knitting and beyond, it was wonderful to see such creativity on display. We thank Mrs Gordon and Mrs Foy for their support in guiding students with ideas, materials, and preparation.

In the classroom, STEM learning has been buzzing with excitement as Mrs Foy leads students through Lego coding challenges. Students have built and programmed 'automated vehicles' that zip around the classroom with lights, sounds, and plenty of creativity. These experiences develop important problem-solving and innovation skills for our learners. See this newsletter for photo captures of our students at work with their Lego creations.

We also congratulate Miss Giorgia Ceccato on the successful completion of her third year professional experience placement at Binya Public School. Mentored by Mrs Foy and supported by Mrs Rinaldo and Mrs Conlan, Miss Ceccato has demonstrated strong growth across planning, teaching, and reflection, culminating in a full teaching load, a clear reflection of her developing skills and confidence as a teacher. A focus on classroom management through positive reward systems has been well received by students, who are now close to reaching their 100 marbles in the jar and planning a fitting celebration.

A huge thank you to Mrs Gordon for setting up the show display, submitting all the students' entries, and organising a fantastic Barellan Show—you truly go above and beyond, and your effort is so appreciated!

SPORT

Sports Equipment Update

Students are asked not to bring balls (football, cricket, or similar) from home to school. The school provides a large supply of balls for play, which we maintain and replace as needed to ensure all students have fair and safe access.

Hugh, Catherine, Sam, Cooper and George competed strongly at the Riverina Athletics Carnival last Friday in Albury.

Hugh has qualified to run in the 100m, 200m and 800m events, and will join Cooper, George and Sam in the P6 relay at the NSWPSA Athletics carnival in Sydney next term.

Cooper, Henry, Hugh and George will be playing in Small Schools cricket team against Griffith North on Thursday 18th September. Good luck boys!

Students may now wear summer uniform. Don't forget to label all jumpers.

Reminder: Juicy fruits can be messy—students are working during fruit break!

Students are reminded to bring a clearly labelled drink bottle each day. Bottles can be refilled from the water cooler at recess and lunch.

Kidz Konnect loved their scavenger hunt adventure!

Students have been enjoying LEGO coding, bringing their creations to life one code at a time. This hands-on learning experience combines creativity, problem-solving, and technology in a fun and engaging way.
