HIGH POTENTIAL GROUPS INVITATION

21 April 2026

Dear Parents,

This year, as part of our school's implementation of the High Potential and Gifted Education (HPGE) Policy, we are establishing a group of students who have been identified through analysis of portfolio submission, school reports and teacher consultation as having high potential or giftedness in the area of visual art.

There will initially be one High Potential Group of Stage 3 students. Mrs Addison will be working with this group, known as the Namatjira Group, beginning in Term 2.

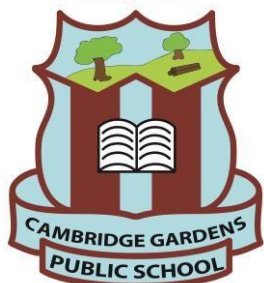

Through the process outlined above, your child has been identified as having high potential in the creative domain of visual art and is invited to be a member of the High Potential Group for their Stage.

The Stage 3 Namatjira Group will consist of 12 students. The group will participate in a range of extension activities in visual art, including: the use acrylic inks, plant dyeing fabrics, textile art, abstract landscapes, and 3D sculpture.

Please complete the invitation form indicating whether or not you would like your child to participate in the High Potential Group they have been selected for.

Kind Regards,
Rebecca Addison
Classroom Teacher
