

CHS SCIENCE FACULTY

# INTERESTED IN SCIENCE?

CORE SCIENCE YEARS 7-10

STAGE 5 ELECTIVE: MARINE STUDIES

HSC SUBJECTS:  
BIOLOGY  
CHEMISTRY  
INVESTIGATING SCIENCE  
PHYSICS  
EXTENSION SCIENCE

Science encourages curiosity. It invites students to question, explore, and seek answers to the mysteries of the universe. This curiosity, in turn, fosters critical thinking skills. Students learn to analyse data, make observations, and draw evidence-based conclusions. These skills are not only valuable in science but also in everyday life, problem-solving, and decision-making.

Students are extended beyond the NSW curriculum with a focus on first-hand investigations and scientific inquiry. High potential and gifted learners are given the opportunity for an accelerated pathway completing the HSC subject Investigating Science in Stage 5.
