

Culture

ARTWORK DETAILS:

This artwork captures the beauty of Aboriginal Culture. The art illustrates the many shades of First Nations People and how together, we honour our cultures beauty through the strengths passed down within our generational bloodline.

Bundjalung Creation Story:

The Wiiyaan are understood as an unbroken line of origin, the Ancestors of the Tweed Bundjalung people. According to the creation story, 3 brothers arrived by canoe with their families and journeyed north, south and west, forming distinct tribal groups and language variations. In the southern dialect, the brothers are known as Mamoon, Birrung and YarBirrain, while in the northern dialect they are Yarbiri, Marming and Birin. Their story is deeply embedded in Bundjalung culture, lore and Country, with key locations marked by natural landmarks throughout the region.
