

ESHS

EXTENSION

PROGRAM

If you are looking for a supportive, competitive and safe learning environment that will provide for the individual needs of your Gifted and Talented child, then look no further than Endeavour Sports High School.

Here at Endeavour we deliver many initiatives to cater for students presenting characteristics of giftedness, talent and creativity.

Through a differentiated curriculum, our highly qualified and experienced staff enrich, extend and accelerate our students academically, in sport and through the creative and performing arts.

HOW THE ESHS EXTENSION PROGRAM WORKS

Students are placed into Extension Class I or II based on academic criteria. The Extension class students in year 7 will have sat the entrance assessment test during the previous year. The Gifted & Talented Co-ordinator also carries out parent, teacher and student surveys on each child in the Extension class so that characteristics of their talent or giftedness can be identified and profiles can be provided for staff. This then allows our teachers of the class to differentiate their programs to provide enrichment and acceleration for the identified Gifted and Talented students. We also provide additional programs, strategies and experiences that will further extend and enrich the learning of these students.

Academic Opportunities at Endeavour

- Mathematics, Science, English & HSIE challenges, Inquisitive Minds, & Decathlons.
- Coding
- G&T field trips & incursions in English, HSIE, Science, Maths, Music, Art and TAS.
- Debating & public speaking
- Student leadership
- Band & ensembles
- Peer mentoring
- Short film production

We work closely with our university partners, academics and education experts to ensure that our programs and teaching and learning strategies enable our students to reach their academic potential.

**ACADEMIC EXCELLENCE IS OUR NUMBER
ONE PRIORITY**
