

High Potential and Gifted Education

Ignite your child's potential at Engadine West Public School

At our school, every learner's potential is our priority. Many students have high potential, and we help that potential to grow into something powerful.

We are committed to developing our students potential across four domains: creative, intellectual, physical and social/emotional. We recognise and nurture these strengths early and support high potential students with great lessons and activities to help them grow and thrive.

High potential and gifted education is delivered at our school in the classroom, across the school and through statewide opportunities.

Classroom 	School 	Statewide 
Our classroom practices support and extend high potential and gifted students. • We offer differentiated tasks that adjust pace, complexity and higher-order thinking • We provide strengths-based feedback and goal setting • Our teachers engage in professional learning to support the diverse needs of all students	Our school offers a range of whole-school programs that support student growth. • STEM club • Creative arts showcases • Student leadership roles • Representative sport teams • Junior and senior choir • Band • Dance ensembles • Art competitions • Student leadership development programs	Our students participate in a wide range of programs to extend their potential. • The Premier's Spelling Bee • The Premier's reading Competition • The Schools Spectacular • The Premier's Sporting Challenge • Participation in state-wide dance ensembles • Public speaking competitions • Academic competitions such as APSMO
