

Dear students,

You are invited to become a teddy bear guardian. I know that you all look after your teddy bears very well. What many people do not know is that teddy bears used to look after themselves. They lived wild in the forest.

To learn how to be a teddy bear guardian you can come to our forest. In the forest animals can find all they need to live.

You should bring your teddy with you. Invite your teddy to come on a picnic. When you come on the picnic you will learn the secret meaning of PAWS.

We look forward to seeing you soon!

Yours sincerely,

Edward
Chief Teddy
