

At Hassall Grove Public School, we recognise the importance of communication in maintaining positive and effective partnerships with our families. Our school's communication methods are:

School Bytes: Emails and alerts are sent to families to notify you of upcoming events or as a means of communication about important school matters. For ease of use and for receipt of timely updates and notifications, we recommend that you download the School Bytes app on to your phone.

Facebook: Our Facebook page celebrates student achievement and is designed to inform the community of upcoming events and learning opportunities that occur at Hassall Grove Public School. It is not designed as a direct message portal, nor will the school communicate directly with you on this platform.

Communication with Staff

Communication is highly valued by our school community, and we encourage raising issues with us promptly and as they arise. Parents are encouraged to follow the communication process when communicating with the school:

School email: hassallgro-p.school@det.nsw.edu.au

We ask that any written correspondence with our school be made through the school's official email account. Please ensure that you write the staff member's name in the subject section, for example, Attention: Mrs Smith. **Our staff will respond to your queries within 2 school days under normal circumstances.**

Requests for a meeting at a mutually convenient time with a staff member can be made via this method OR via the school telephone on 02 9835 1756.
