From the Principal

It was wonderful seeing so many families attend Meet the Teacher Evening last night. Hopefully you found the session informative and beneficial. For those unable to attend, links to the slideshow presentations and term overviews for each Stage can be found in this newsletter.

In staffing news Ms Terashima has informed the school that she will be unable to return to teaching this year. We are now undergoing recruitment processes for a classroom teacher for 3/4T. This process will take a few weeks to complete and I am hopeful of being able to provide you with information soon. In the meantime Ms Niamh Fitzgerald is doing a great job ensuring that learning continues to take place in this class.

While it is great seeing so many families meeting in the playground after school, can I please kindly request that you leave the school grounds by 3.30pm each afternoon. YMCA has the licence to use our grounds after this time and they are finding it very difficult to supervise students in their care while other students remain on the playground. Thank you in advance for supporting us.

Finally, congratulations and thanks to parents/carers elected to our P&C Executive on Monday night:

School Swimming Carnival Review

Our school reviews every event we run at school to assess what went well and where improvements could be made. Three years ago we made the decision to book an indoor pool for our swimming carnival to avoid the chances of the day being impacted by inclement weather. As a result we have been able to run a carnival not impacted by rain, storms or heat. The downside to this decision has been the cost of running this event. Ryde Aquatic Centre was selected as the venue because of its facilities, including sufficient seating for all students in

attendance. Hiring costs of the venue, coupled with the increased cost of transportation for students has meant that the school incurs a substantial financial loss on the day.

This year only 31 students participated in 50m competitive races during the day. There were several students that attended the carnival and did not participate in any activities throughout the day. We also had our highest absentee rate of the year. I have always believed a carnival has two main purposes;

- As a means of selecting students to represent the school at the Zone carnival
- To provide opportunities for all students to participate on the day and thus build team spirit.

At the P&C meeting on Monday night our school proposed making next year's carnival for competitors only. The carnival would run for three hours only and be held at Annette Kellerman Pool. Those students not participating in 50m races could remain at school and continue to engage in learning. Attendees at the P&C meeting were keen for the carnival to continue in its current format and proposed subsidising the cost of the carnival to ensure the additional financial cost was not absorbed by the school.

Before we make any decision, we'd like to hear from you. It will be greatly appreciated if you can spend two minutes completing the following survey: 2027 MPS Swimming Carnival

Because pool availability is extremely limited at the beginning of the year this survey will only remain open for one week.

Art Therapy for Children in Earlwood

STRENGTHENING CHILDREN'S COMMUNICATION SKILLS AND SELF CONFIDENCE

Art Therapy supports children to express themselves through art making. This develops their awareness of their thoughts and feelings and their confidence in communicating them.

SUPPORTING CHILDREN TO PROCESS DIFFICULT EXPERIENCES AND BIG CHANGES

Some children need support during periods of transition (e.g. starting primary or high school, following parent separation or a new baby joining the family). Others may have experienced challenging or traumatic life events (e.g. loss of a loved one, domestic violence, family member being unwell) and need support to express their feelings and make sense of these experiences.

DEVELOPING UNDERSTANDING OF FEELINGS AND MANAGING FEELINGS BETTER

Parents may feel concerned about a change in their child. Their child may not be able to communicate what is troubling them. Art Therapy provides a way for the child's fears, worries and upsets to be expressed, better understood and ultimately feel more manageable.

SUPPORTING NEURODIVERSE CHILDREN

Making art and playing in art therapy are engaging and non-threatening ways to strengthen social and communication skills and support anxiety management in children with Autism.

Kerrie Webb is available for referrals of children 4-13years. Kerrie is a Professionally Registered Art Therapist with ANZACATA. She has over 15 years of experience supporting children and families in community, health and education settings.
