Understanding NAPLAN - information session	Cherie Smith provided an in depth and informative overview <i>Understanding NAPLAN and School Data.</i> - NAPLAN testing changed scoring and reporting methods in 2023, from numeric (0-1000)to descriptive (exceeding, strong, developing, needs additional support) making it difficult to compare progress across multiple years. - NAPLAN tests take 45-50 minutes across numeracy and literacy. - The things student learn each day at school prepares them well for NAPLAN. - Parents and carers are encouraged to support students by not making it a big and scary event and providing a calm and smooth morning. - Our school is making great progress and our goal for this and coming years is to see more strong and exceeding ratings.
