YEAR 10 ASSESSMENT PROCEDURES

The purpose of assessment

Assessment is the process of identifying, gathering and interpreting information about student learning. It is designed to provide information on student achievement and progress in each subject in relation to syllabus standards, and to report on the standard of performance reached. Assessment measures performance throughout the whole course in each subject, including knowledge, understanding, skills and processes. Students are assessed on what they understand, know and can do.

This booklet lists formal assessment items that are common to all students in that course. Students will also be given tasks that do not appear in this booklet and are required to complete these. These tasks also contribute to students' ability to develop their knowledge, skills and understanding. The Years 7–10 syllabuses advocate assessment *for* learning and these tasks are important to the development of student awareness about their progress.

The evidence teachers gather about student achievement is used for assessment *of* learning, which takes place at key points in the assessment cycle, such as at the end of each semester, when students receive academic reports indicating their levels of achievement.

How will assessment be undertaken?

NESA has provided a syllabus and a set of performance descriptors for each subject. Syllabus documents for each course are available on the NESA website, and can be accessed at:

<https://educationstandards.nsw.edu.au/wps/portal/nesa/home>

The syllabus contains a statement of outcomes and content for each course.

Each subject will require a different number of assessment tasks to adequately assess the course. Assessment tasks may include tests, assignments, projects, research tasks, class presentations, practical tests, class exercises and examinations.

How will students be graded? Mandatory courses

Mandatory courses are: English, Mathematics, Science, Australian History, Civics and Citizenship, Geography and Personal Development, Health and Physical Education (PDHPE).

In accordance with the requirements of NESA, the NSW Education Standards Authority, students will receive a **ROSA** (Record of School Achievement) grade based on their performance in assessment tasks for stage 5 courses.

Students satisfactorily complete 200 hours for all core subjects.

Throughout the year teachers will:

- devise and administer assessment tasks that address the knowledge and skills objectives and outcomes of the syllabus;
- use assessment information to make a summative judgement of each student's overall level of achievement at the end of the course;
- Refer to the Course Performance Descriptors to award a grade that most appropriately describes a student's achievements.

Note: There are nine grade levels for Mathematics:

A10, A9, B8, B7, C6, C5, D4, D3, and E.

An 'N' determination indicates that a student has not satisfied the requirements of the course.

How will students be graded? Elective courses

Grades A to E are awarded for elective courses. The grades in these subjects are awarded by the school based on performance descriptors issued by NESA. These grades will indicate the students' level of achievement relative to the knowledge and skills objectives of the course.

Grades in these subjects are:

Grade A	Extensive
Grade B	Thorough
Grade C	Sound
Grade D	Basic
Grade E	Elementary
Grade N	No award

The grade a student receives in these subjects will be the one which best relates to the description of the student's achievement given in the Course Performance Descriptors on page 6.

An 'N' determination indicates that a student has not satisfied the requirements of the course.

Other compulsory courses including SPORT

For four other mandatory courses (Art, Music, Technology, Modern Languages) - one of two grades will be awarded and reported as part of the Year 10 Record of School Achievement (ROSA).

These grades are:

S	Satisfactory completion
U	Unsatisfactory completion

Students will normally have completed these requirements by the end of Stage 4.

SPORT

Students are reminded that they must satisfactorily meet the requirements for Thursday sport. Attendance each week is **compulsory**.

RESPONSIBILITY

What are performance indicators?

A *performance descriptor* is a statement about a student's level of achievement related to the knowledge and skills objectives of each course.

Outline of General Performance Descriptors

A	The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.
B	The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply this knowledge and these skills to most situations.
C	The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
D	The student has a basic knowledge and understanding of the content and has achieved a limited level of competence in the processes and skills.
E	The student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in some of the processes and skills.
N	An 'N' ranking may be applied, meaning the student has failed to meet requirements relating to attendance and/or participation in assessment, has shown limited effort or failed to reach course goals.

Submission of tasks

Assessment tasks that are completed outside the classroom:

Tasks completed outside the classroom are to be submitted by the designated day and time as specified on the task notification sheet. They may be submitted early.

Any task submitted after the designated day and time will be deemed to be late, unless the student has been granted an extension, or is absent on the day due to illness or other acceptable reason.

Assessment tasks that are completed in class:

Assessments completed in class, such as tests and examinations, practical tasks, performances, speeches, presentations and so on, must be completed on the designated day.

All Assessment Tasks:

Failure to complete or to submit a task on time, without the provision of documentary evidence, will result in a mark deduction as follows:

One day late:

100% of total marks

Late tasks must still be completed and submitted in order to meet course outcomes.

In Year 10, failure to sit an assessment task without valid reasons and supporting documentation will lead to an “N Warning” letter (letter warning that a student is not satisfactorily meeting the outcomes of the course) being issued.

Absence from an assessment task / examination

It is the student's responsibility to submit/complete all formal assessment tasks at the specified time. Unless prior application for an extension has been approved by the relevant Head Teacher, late submission will result in a deduction of marks. If an extension has been granted, and the task is submitted/ completed on the new date, no penalty applies.

If you become ill or suffer a misadventure that affects your submission of a task or your ability to attend an examination, you should provide a medical certificate or a letter explaining the misadventure to the Head Teacher. The misadventure application will be considered by a panel comprising the Head Teacher and a Deputy Principal. This documentation is to be brought to the Head Teacher on the first day of return to school, irrespective of whether the student has a timetabled period in that subject that day.

If a student is to be absent from an assessment task for any reason other than illness, the student must inform the class teacher prior to this absence (e.g. if the student is to represent the school in a curriculum enrichment event such as sport, debating or music, etc. on that day) to make alternative arrangements.

In the event of an unexpected issue (e.g. family illness), contact should be made with the school as soon as practicable given the particular circumstance.

The Head Teacher of the subject concerned will:

- allow the student to undertake the same task; or
- allow the student to undertake a suitable replacement task; or
- Give an estimate for that task only, based on the quality of the student's work in the components being assessed, if the Principal permits.

Students are advised that **no** adjustment of assessment marks is possible if a task has been attempted. If you are sick and have a medical certificate covering the period of the task, you are advised to stay at home and attempt the task upon your return to school.

If a student will miss an assessment task due to going on vacation, approval must be given by the Principal prior to the event.

Attendance before a task is due

Where an assessment task is to be held in class or submitted on a due date students **MUST** attend **ALL** prior lessons on that day to be eligible to sit for or submit the task. If students are to be absent from an assessment task for any reason, they must explain the situation to the Head Teacher prior to the event.

INTEGRITY

Tasks submitted late

Tasks submitted late without approved extension of time from the relevant Head Teacher will incur penalties as discussed in the 'Submission of Tasks' section of this document. Even though late tasks may not be awarded marks, tasks **must still be completed** and submitted in order to meet course outcomes.

Head Teachers may accept tasks submitted late as long as the student requests consideration in writing **BEFORE** the date that the task is due. This also includes circumstances that occur on the evening prior to the submission date where prior written application cannot be made. Any extension time will only be granted in **exceptional circumstances**.

Failure of computer equipment is NOT an acceptable reason. Students should develop a pattern of regularly backing up work on a transportable or internet-based storage facility, which can be accessed at school in the event of any computer failure e.g. printer out of ink.

If late submission of a task is due to you should provide a medical certificate or a letter explaining the misadventure to the Head Teacher upon the expiration of the medical certificate or your return to school. The misadventure application will be considered by a panel comprising the Head Teacher and a Deputy Principal. Lateness beyond the period of illness or lateness for which a student does not seek approval before the due date will lead to a mark deduction.

Non-completion of assessment tasks

Students must complete all assessment tasks. If tasks are not completed, an N-Award warning letter will be sent home in the first instance. If necessary, a meeting with the Head Teacher or Deputy Principal will be arranged as needed.

If no adequate resolution can be achieved, the Principal may determine that the course has not been studied satisfactorily.

Assessment Information to be provided to students

Each school has the responsibility to tell the students the following information:

- what aspects of the course will be assessed;
- how they will be assessed (the criteria for marking the task), e.g. what essays, tests, practical tasks will be used;
- the marks and the weighting given to each task; and
- When they are going to be assessed.

Your class teacher will hand out a **task notification** with written details of each assessment task at least **two weeks** before the date that the task is due.

A sample assessment notification is found on page 14 of this booklet.

The notification sheet must contain the following:

- Topic/s being assessed
- Outcomes being assessed
- Assessment criteria

Malpractice

Malpractice or cheating is **dishonest behaviour** by a student that gives them an unfair advantage over others. Most students understand what cheating in an examination means, but there are other types of behaviour that are also considered cheating. Please note that any malpractice in any task may result in zero being awarded for the task in its entirety.

Examples of behaviour considered to be cheating include, but are not limited to:

- copying, buying, stealing or borrowing someone else's work in part or in whole, and presenting it as your own;
- using material directly from books, journals, newspapers, CDs or the internet without acknowledging the source;

- submitting work that contains a large contribution from another person, such as a parent, tutor, coach or subject expert, that is not acknowledged.

The examples above are generally referred to as **plagiarism**.

Consequences of malpractice

All assessment tasks done at school or at home **must be the student's own work**. If any malpractice is proven, the **task concerned scores zero**. The Head Teacher of the faculty concerned will investigate allegations of malpractice.

NESA treats malpractice in written tasks, examinations and practical work very seriously and takes measures to deal with students who are caught.

Depending on the circumstances of the case, one or more of the following may apply:

- zero marks will be awarded for the examination/task in its entirety;
- You may be required to have an interview with a 'malpractice' panel.

Note: the act of bringing notes, etc. into a task/examination will attract a 100% penalty, irrespective of whether those notes were used or not.

Mobile phones and electronic equipment

Mobile phones and smart watches must be switched off and handed to the teacher or kept in your bag before the start of an examination. Other than NESA-approved calculators (when required), no other electronic equipment will be permitted in examinations, or during in-class assessment tasks.

Essential medical appliances need prior approval before the examination/ assessment task.

ACHIEVEMENT

General comments on assessment

1. Information is provided in this booklet about the tasks which will be set in each subject.
2. There may be variation in the number of tasks set or in the description of the task, but students will always be given notice of any change, in advance.
3. Two weeks **WRITTEN** notice will be given of the date for a set task.

4. Remember, work done in assignments, etc., must be the student's own efforts. It easily becomes apparent to teachers if this is not so. If work is proven to be other than the student's efforts, a zero mark may be awarded. Ignorance of the rules regarding plagiarism is not a reasonable excuse: it is the student's responsibility to read **all** information provided.
5. Please note that not all tasks are weighted equally and a poor level of achievement in a major task can have significant consequences. At the same time, it should be recognised that significant variation in a student's rank may occur as a consequence of relatively small mark differences.
6. Learn to organise your time and efforts, so that deadlines and other aspects of the assessment scheme do not cause unnecessary stress. If problems seem insurmountable, there are people in the school who will be available to provide advice and guidance - ask for help!

If a student is suspended when an assessment task is due/taking place the student must not attend school for the duration of the suspension. Assessment tasks are to be submitted on time either by email or by delivery to the Administration Office or to the respective faculty Head Teacher. The Deputy Principal will arrange an adjustment in due date without penalty if an in-class task falls during the suspension.

Steps to manage assessment tasks

- Start tasks early so that you can ask for help if you need it.
- Read the task notification sheet carefully, so you are aware of all requirements.
- Be aware of due dates. Keep your school diary up-to-date with all assessment activities and other commitments.
- Break tasks into a series of smaller steps and set deadlines for completing each step.
- Record the sources of information you use as you find them so that acknowledgements do not become a major task at the end.
- Frequently save, back up and print any work completed on a computer. The failure of technology is NOT an acceptable reason for the late submission of work.
- Keep all your earlier drafts and copies of your resources.
- Keep a copy of any work you submit for marking.

Yearly examinations

Towards the end of Year 10, students will sit Yearly Examinations. In 2025, these examinations dates are to be confirmed but will likely be around **Weeks 2-4 of Term 4**.

Examination rules

- 1** All candidates must check the examination timetable carefully. No consideration will be given to students who arrive late for an examination or who miss an examination due to misreading the timetable.
- 2** All candidates are to remain in the examination room until time has expired for the examination, all papers have been collected, and the examination supervisor dismisses students from the examination room.
- 3** Candidates must check with their subject teachers in advance to ensure they take the necessary equipment to each examination.
- 4** You **MUST NOT**:
 - speak to any person other than a supervisor after entering the examination room;
 - take any electronic device into the examination, unless approved;
 - behave in any way likely to disturb the work of any other student or upset the conduct of the examination;
 - take into the examination room, or refer to during the examination, any books or notes, any paper, or any equipment other than the equipment approved for the specific examination;
 - wear a cap;
 - Take any food or drinks (other than water) into the examination room, unless you have been granted special provisions. Water in a clear bottle only may be taken into the examination room.

Failure to comply with any of these rules could lead to a **zero** result awarded.

- 5** Only equipment that is necessary and approved for use in the examination is to be placed on the examination desk. Pencil cases and other equipment must be placed on the floor under your chair. You must remove your watch and place it in clear view on the examination desk. **Mobile phones** and **smart watches** are to be kept in your school bag and must be turned **OFF**.
- 6** If you need to leave the exam room to use the bathroom, you must raise your hand and wait until a teacher allows you to leave. Bathroom breaks are NOT permitted during the **first 15 minutes** OR the **last 15 minutes** of the examination. Exceptions will be made **ONLY** in the case of an emergency.
- 7** Full school uniform must be worn throughout the examination period. This includes school shoes.
- 8** If a candidate misses an examination due to illness or misadventure, the school is to be advised before the examination is held. You or your parent/carer must ring the school on 9473 5000 and leave a message for the relevant Head Teacher.

Candidates who miss an examination/task due to illness, misadventure or absence from school should see the appropriate subject Head Teacher immediately when they return to school. Upon acceptance of a medical certificate or document of explanation, provision will be made for the student to sit the examination paper at an appropriate time, or other arrangements will be made.

Reporting on student progress

Student progress reports are issued twice each year in Semesters 1 and 2.

Achievement levels are recorded for each course outcome by a grade scale using course performance descriptors. The standard of achievement corresponding to each level of the grade scale is shown in the table below.

Progress reports also include achievement levels in general outcomes applicable to all courses, including:

- Prepared to learn
- Respects the rights of others to learn
- Produces quality work commensurate with level of ability

Sample assessment task notification

Pennant Hills High School

Course:

Stage: 5

Year: 10

Areas of study:

Date issued:

Task date:

Task number: 1

Weighting:

Task type:

For example: *research project, performance, test in class, practical, etc.*

Task description:

Any information that helps students understand what is expected of them. For example: a formal examination of 60 minutes duration, made up of multiple choice questions, short answer questions, and an extended response.

Outcomes being assessed by this task:

For example:

5.1 *explains social, political and cultural developments and events and evaluates their impact on Australian life*

5.3 *explains the changing rights and freedoms of Aboriginal peoples and other groups in Australia*

Criteria for assessment:

For example: *marking guidelines, where appropriate*

Additional information:

This is a formal assessment item. Absence due to illness must be supported by a letter from a parent, presented to the Head Teacher on the **first** day of your return to school, irrespective of your timetable for this subject. You must be prepared to attempt/submit the task on the first day of your return to school.

If you are going to be absent for a legitimate reason known in advance, (such as representing the school in a curriculum enrichment event) you must discuss this with your teacher as soon as possible, and provide the Head Teacher with a letter from your parent.

This section will also contain any relevant details about submission, equipment needed, how the presentation order will be determined for speeches, etc.

COURSE ASSESSMENT SCHEDULES

The following pages outline the assessment items for each Year 10 course.

The dates and details listed in each schedule are approximate and subject to change.

Students will be informed by their teacher of the actual date and details of the assessment task at least TWO weeks before the task.

MANDATORY COURSES

English

Areas of assessment

Speaking	Knowledge and understanding
Reading	Information and communication technology
Writing	Viewing
Creative and imaginative thinking	Listening
Critical and interpretive thinking	Representing

Task Number	Description	Topic	Weighting	Timing
1	Comparative Essay	Comparative Study: Novel and Film	25%	Term 1, Week 10
2	Listening and reading task	Comedy and Satire	25%	Term 2, Week 6
3	Imaginative writing	Area of Study: Coming of Age	25%	Term 3, Week 4
4	Essay	Shakespeare Study: Macbeth	25%	Term 4, Exam Block

Geography

Note: Year 10 students will study Geography and History for one semester each.

Proportion of Marks

Task Type	Weighting %
Research task extended response	40
Test components	40
Class assessment	20

Task Number	Description	Topic	Timing
1	Research based task – in-class extended response	<ul style="list-style-type: none"> Environmental change and management Geographical tools and skills 	Term 1, Week 9
2	Stimulus based task – in-class response	<ul style="list-style-type: none"> Human Wellbeing Geographical tools and skills 	Term 2, Week 3
3	<p>The class assessment will consist of a range of smaller tasks designed to allow students to demonstrate their knowledge, understanding, and skills within the course. These may include:</p> <ul style="list-style-type: none"> Active participation in class discussions/activities Completion of specific learning activities as determined by the classroom teacher Completion of learning activities observed in book checks, by the teacher during class etc. 		Ongoing

Task Number		Description	Topic	Timing
1	Semester 2	Research based task – in-class extended response	<ul style="list-style-type: none"> • Environmental change and management • Geographical tools and skills 	Term 3, Week 5

Task Number		Description	Topic	Timing
Semester 1	1	Alternate energies project development	Ongoing development of Portfolio and Working Model to match design brief	Term 1, Week 10
	2	Research Task		Term 2, Week 3
	3	Alternate energies completion	Completed Portfolio and Working Model to match design brief	Term 2, Week 3
	4	Half Yearly Examination	Knowledge of Engineering principles related to Minor Projects	Term 2, Week 3

Semester 2	5	Control Systems Development	Ongoing development of Portfolio and Working Model to match design brief	Term 3, Week 4
	6	Research Task		Term 4, Week 3
	7	Control Systems	Completed Portfolio and Working Model to match design brief	Term 4 Week 2
	8	Yearly Examination	Knowledge of Engineering principles	Term 4, Week 3

Food Technology

Areas of Assessment

- knowledge, understanding and skills related to food hygiene, safety and the provision of quality food
- knowledge and understanding of food properties, processing and preparation and their interrelationship to produce quality food
- knowledge and understanding of nutrition and food consumption, and the consequences of food choices on health
- skills in researching, evaluating and communicating issues in relation to food
- skills in designing, producing and evaluating solutions for specific food purposes
- knowledge and understanding of the significant role of food in society.

Task Type	Weighting %
Practical	30
Research Tasks	30
Tests / Examinations	20
Coursework	20

Task	Description	Topic	Timing
1	Research Task	<ul style="list-style-type: none"> knowledge, understanding and skills related to food hygiene, safety and the provision of quality food skills in designing, producing and evaluating solutions for specific food purposes 	Term 1, Week 7
2	Unit Test	<ul style="list-style-type: none"> knowledge, understanding and skills related to food hygiene, safety and the provision of quality food knowledge and understanding of food properties, processing and preparation and their interrelationship to produce quality food 	Term 2, Week 4
3	Research Task	<ul style="list-style-type: none"> knowledge, understanding and skills related to food hygiene, safety and the provision of quality food skills in designing, producing and evaluating solutions for specific food purposes knowledge and understanding of nutrition and food consumption, and the consequences of food choices on health 	Term 3, Week 6
4	Yearly Examination	<ul style="list-style-type: none"> knowledge and understanding of the significant role of food in society. knowledge and understanding of food properties, processing and preparation and their interrelationship to produce quality food knowledge, understanding and skills related to food hygiene, safety and the provision of quality food knowledge and understanding of nutrition and food consumption, and the consequences of food choices on health 	Term 4, Week 3
5	Plans, prepares, presents and evaluates food solutions for specific purposes	<ul style="list-style-type: none"> knowledge, understanding and skills related to food hygiene, safety and the provision of quality food knowledge and understanding of food properties, processing and preparation and their interrelationship to produce quality food 	Ongoing

Industrial Technology: Timber

Areas of Assessment

- Demonstration of safe working practices.
- Demonstrated skills in project production.
- Knowledge of technology and its applications.
- Quality of documentation of design processes.
- Safety Tests, Workshop Behaviour
- Practical
- Test, Homework, Bookwork
- Design Folios

Proportion Of Marks

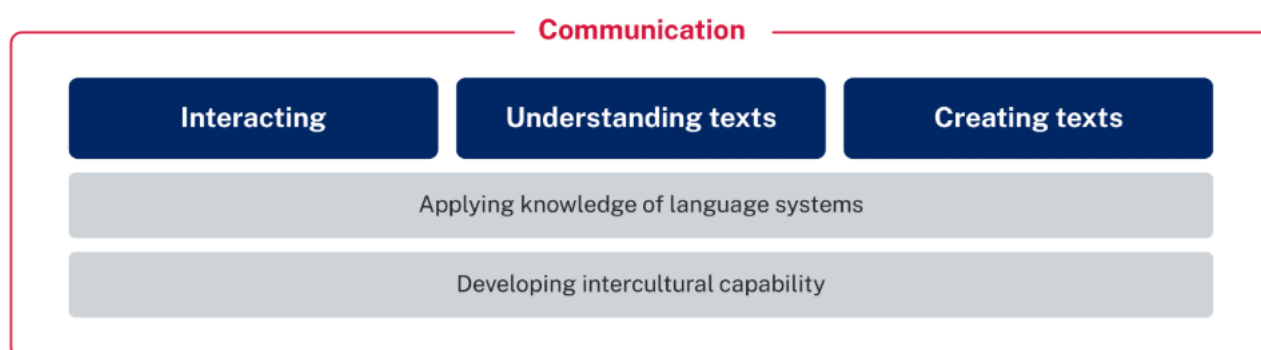

Task Type			Weighting %
Design Folios			20
Class Test			20
Practical Projects			60
Task Number	Description	Topic	Timing
Semester 1 – Cabinet Lobe 3	1	Practical Joints	Initial bench and joint work – legs, tapers, M&T joints
	2	In class tasks	Mark based upon class theory and homework exercises.
	3	Half Yearly Test	Knowledge of materials, tools & processes.
Task Number	Description	Topic	Timing
Semester 2 – Cabinet Lobe 4	1	Development of Table (practical)	Assembly of step-up
	2	Development of table portfolio	Documentation of the construction and management of the step-up including workshop drawings
	3	Completed Design Folio (Table)	Final documentation of the construction and management of the step-up including workshop drawings.
	4	Completed Table portfolio	Completed Step-up – assembly, sanding, hardware, finishing. Portfolio (max 30 pages)
	5	Book Mark	Book mark based upon class theory and homework exercises.
	6	Yearly Test	Knowledge of materials, tools & processes.

Modern Languages - Chinese

Students study Chinese for 100 hours in Year 9, and another 100 hours in Year 10. Students are not required to have completed the respective Year 7 taster course and/or Year 8 mandatory courses as a prerequisites. Upon completion of 200 hours of Stage 5 language learning, students will be eligible to enrol in the HSC Continuers level language courses.

Areas of Assessment

- communication is the central goal in language learning
- the 3 focus areas are interacting, understanding texts and creating texts

Focus Area	Description	Skill	Weighting
Interacting ML5-INT-01	Exchanges information and opinions in a range of familiar contexts by using culturally appropriate language	Speaking	20%
Understanding texts ML5-UND-01	Interprets and responds to information, opinions and ideas in texts to demonstrate understanding	Listening	30%
		Reading	30%
Creating texts ML5-CRT-01	Creates a range of texts for familiar communicative purposes by using culturally appropriate language	Writing	20%
Applying knowledge of language systems	Applies knowledge of language systems in all focus areas as an essential part of communication		
Developing intercultural capability	Demonstrates the capacity to exchange, understand and create meaning between people and across languages and cultures and is developed in all focus areas		

Assessment Task Schedule

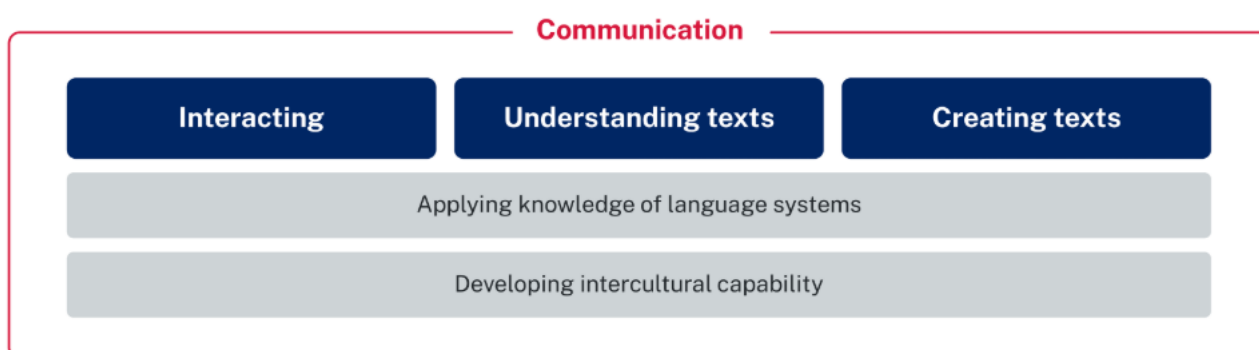

Task	Outcomes and Skills	Areas of Learning	Timing
Task 1: Assignment and In-class Test	Writing 10% ML5-CRT-01	My Studies	Term 1, Week 9
Task 2: In-class test	Listening 10% Reading 20% ML5-UND-01	School Life Directions	Term 2, Week 5
Task 3: Video Assignment	Speaking 20% ML5-INT-01	Leisure Life Physical Descriptions	Term 3, Week 9
Task 4: In-class test	Listening 20% Reading 10% Writing 10% ML5-UND-01, ML5-CRT-01	Travel Sickness	Term 4, Week 5

Modern Languages - French

Students study French for 100 hours in Year 9, and another 100 hours in Year 10. Students are not required to have completed the respective Year 7 taster course and/or Year 8 mandatory courses as a prerequisites. Upon completion of 200 hours of Stage 5 language learning, students will be eligible to enrol in the HSC Continuers level language courses.

Areas of Assessment

- communication is the central goal in language learning
- the 3 focus areas are interacting, understanding texts and creating texts

Focus Area	Description	Skill	Weighting

Task 2: In-class test	Listening 10% Reading 20% ML5-UND-01	School Life Directions	Term 2, Week 5
Task 3:	Speaking 20%	Leisure Life	Term 3,

Video Assignment	ML5-INT-01	Physical Descriptions	Week 9
Task 4: In-class test	Listening 20% Reading 10% Writing 10% ML5-UND-01, ML5-CRT-01	Travel Sickness	Term 4, Week 5

Music

Areas of Assessment

- Knowledge and Understanding
- Research
- Aural Skills
- Composition
- Analysis
- Performance Skills
- Written Skills
- Class Presentation

Proportion of Marks

Task Type	Weighting %
Performing	30
Composing	30
Listening (incorporating musicology, aural skills and theory)	40

Task	Description	Topic	Weighting	Timing
Semester 1				
1	Performing	<i>Music of a Culture</i> Group Performance	30%	Term 1, Week 8
2	Listening	Examination	40%	Term 1, Week 10
3	Composing	<i>Technology in Music</i> Composition and Arrangement	30%	Term 2, Week 4
Semester 2				
4	Performing	<i>Australian Music</i> Own Choice Performance	30%	Term 3, Week 5
5	Composing	<i>Australian Music</i> Graphic Notation Composition	30%	Term 3, Week 8
6	Listening	Yearly Examination	40%	Term 4, Week 3

Physical Activity and Sports Studies (PASS)

Areas of Assessment

- Physical Fitness
- Issues in physical activity and sport
- Physical activity and sports specific groups
- Australia's sporting identity
- Speedway / soccer
- Volleyball / Badminton
- Modified sports / wheelchair basketball
- Indoor hockey / Surf School

Proportion of Marks

Task Type	Weighting %
Theory Tasks	50
Practical skills	50

Task Number	Description	Topic	Timing
1	Theory	Nutrition - advertisement of a product	Term 1
	Practical	Fitness types of training	
2	Theory	Coaching session and plan	Term 2
	Practical	Vigorous vs Low Intensity	
3	Theory	Body systems examination	Term 3
	Practical	Coaching practical task NRL coaching incursion	
4	Theory	Recreational games task	Term 4
	Practical	Recreational games excursion	

Photographic and Digital Media (PDM)

Areas of Assessment

- Knowledge and Understanding
- Practical skills
- Written skills
- Research and investigation
- Problem solving

Proportion Of Marks

Task Type	Weighting %
Making Photographic and Digital works - still, interactive, moving forms (Portfolio)	40
Journal (Process Diary)/Case Study/ Critical and Historical Interpretations	40
Essay/Short Answer Response/Yearly Examination	20

Task Number	Description	Topic	Timing
1	Essay/Short Answer Response: in-class	Critical and Historical Interpretation Component	Terms 1, 2, 3 - Week 7
2	Case Study: hand-in task	Critical and Historical Interpretation Component	Terms 1, 2, 3 - Week 8
3	Journal (Process Diary): hand-in task	Practical Component	Terms 1, 2, 3, 4 - Week 8
4	Photographic and Digital work (Portfolio): in-class task	Practical Component	Terms 1, 2, 3, 4 - Week 10
5	Yearly Examination: in-class	Critical and Historical Interpretation Component	Term 4, Week 2

Textiles Technology

Areas of Assessment

- Knowledge and understanding of the properties and performance of textiles
- Skills in the creative documentation, communication and presentation of design ideas
- Knowledge and understanding of, and skills in design for a range of textile applications
- Skills in the critical selection and proficient and creative use of textile materials, equipment and techniques to produce quality textile items
- Knowledge and understanding and appreciation of the significant role of textiles for the individual consumer and for society
- Knowledge and skills to evaluate quality in the design and construction of textile items

Proportion of Marks

Task Type	Weighting %
Project Work (Practical and Portfolio)	40
Research / assignment	30
Tests/Examinations	20
Supporting documentation	10

Task Description	Topic	Timing
Project work with supporting documentation	<ul style="list-style-type: none"> • Knowledge and understanding of the properties and performance of textiles • Knowledge and understanding of, and skills in design for range of textile applications • Skills in the creative documentation, communication and presentation of design ideas • Skills in the critical selection and proficient and creative use of textile materials, equipment and techniques to produce quality textile items 	<p>Term1, Week 8 (Lounge pants)</p> <p>Term 2, Week 5 (Textile art)</p> <p>Term 3, Week 8 (Skirt or shorts)</p> <p>Term 4, Week 2 (Recycled denim)</p>
Unit Test	<ul style="list-style-type: none"> • Knowledge and understanding of the properties and performance of textiles • Knowledge and understanding of, and skills in design for range of textile applications • Knowledge and skills to evaluate quality in the design and construction of textile items 	Term 2, Week 3
Yearly Examination	<ul style="list-style-type: none"> • Knowledge and understanding of the properties and performance of textiles • Knowledge and understanding and appreciation of the significant role of textiles for the individual consumer and for society • Knowledge and understanding of, and skills in design for a range of textile applications • Knowledge and skills to evaluate quality in the design and construction of textile items 	Term 4, Week 5

Visual Arts

Areas of Assessment

- Knowledge and Understanding
- Practical skills
- Written skills
- Research and investigation
- Problem solving

Proportion Of Marks

Task Type	Weighting %
Body of Work (BOW)	40
Process Diary (VAPD)/ Case Study	40
Essay/Short Answer Response/Yearly Examination	20

Task Number	Description	Topic	Timing
1	Essay/Short Answer Response: in-class	Critical and Historical Studies	Terms 1, 2, 3 - Week 6
2	Case Study: hand-in task	Critical and Historical Studies	Terms 1, 2, 3 - Week 8
3	Process Diary: hand-in task	Practical	Terms 1, 2, 3, 4 - Week 8
4	Body of Work: in-class task	Practical	Terms 1, 2, 3, 4 - Week 10
5	Yearly Examination: in-class	Critical and Historical Studies	Term 4, Week 2
