The Assessment Booklet

The purpose of this booklet is to give students and their parents an indication of the assessment sequence for each subject studied and provide advice on the school assessment policy.

School Homework Policy

Homework is a very important part of learning. Students are responsible for regularly reviewing and consolidating at home the work, which has been covered in lessons. This is complemented by formal work including projects and assignments, which are set by the class teacher.

Homework is an important part of the Curriculum but varies with different subjects and individual student needs. Homework will not necessarily be given every night in each subject. It is expected that students develop a pattern of regular revision. In this respect teachers will continue to counsel students in home study programs and independent learning techniques including how to revise and summarise work.

Study Skills

Having good study habits is not a matter of chance. Some of the students in your class probably appear to be much better at doing assignments and exams than others. This does not mean that they were 'born with' the ability to study; it simply means they have learnt the skill before others.

Anyone can learn good study habits and improve his or her chance of doing well in exams. All you need to do is listen, learn and practice.

Dividing Study Time

Homework must be a regular part of every weekly study timetable and must be done first (so it is not 'hanging over your head'). While completing homework, you should also revise the work done at school that day, because this is the best way to reinforce your learning. Time should be given to all subjects. Most study time should be spent on your weakest subjects.

Study time (as distinct from homework time) should start with your weakest subject, while you are still fresh. It is important to get into a habit of recording homework and study in your diary – organisation is the key to successful study and homework.

Role of the School Diary

Students are expected to have the Picnic Point High School diary with them at all times. The diary has the following purposes:

- Homework record for students and parents
- Assessment task planning for students
- Record of out of class passes during the day
- Messages from staff to parents

Students and families have the responsibility to ensure that the correct use of the school diary enables a greater knowledge of what students are doing each day at school.

School Assessment Policy Years 7-9

An assessment is a measure of student achievement over the whole program of study within a subject.

In the following information, Assessment Task includes Examinations.

1. Student Responsibilities

- a) You *MUST BE FAMILIAR* with the school's assessment policy.
- b) It is your responsibility to attend school, be aware of due dates for assessment tasks and complete tasks on time. If you are absent for any number of days you must check to see if an assessment task has been posted to any of your Google classrooms. Upon returning to school, you should also check with your teachers to see if any assessment tasks have been set.
- c) You must apply yourself to all course work/class work as required by your teachers.
- d) It is *YOUR* responsibility:
 - i) To *BE ON TIME* to all in-class assessment tasks; you will **not** be given an extension of time if you are late to any task held in school time or at the beginning of the day unless the Deputy Principal or the Principal has verified that you have legitimate reasons for being late and are prepared to give you a note to that effect.
 - ii) To *BE PRESENT* to do all in-school assessment tasks. **This means being present for the whole day that a task is due or that a task is set as an exam.**
 - iii) To hand in any homework assessment task on time to your teacher or Google Classroom when required.
- e) If you are absent for an assessment, test or on the day a task is due it is *YOUR RESPONSIBILITY* to bring a medical certificate or approved documentation justifying your absence to the appropriate Head Teacher immediately upon your return to school.
- f) It is your responsibility to notify your teacher of any assessment problems *IN ADVANCE*, if possible.
- g) It is your responsibility to *CHECK THE MARKING* of each task when it is returned to you on the same day.
- h) **Students who prepare assignments or other required work relying on technology (ie: Computers) will not be permitted to use the failure of such a device as a reason for failing to hand in work. Students must take appropriate steps to keep hard copies or back up files on a regular basis. The school will assist you with technology support if requests are made at the appropriate time (any extraordinary situation will be dealt with by the appeals committee).**

NB: You must not under any circumstances leave a piece of work on a teacher's desk as no record will have been established of its presentation. Therefore, any work not personally handed to the class teacher or the Head Teacher will be dealt with in the same manner as for failure to complete a task.

2. School Assessment Policies

- a) Advance Notice of Assessment Tasks
Students will be given written notice of any assessment task particularly for those which require preparation or home study. Students will also receive an electronic copy of the task notification on their relevant Google classroom.
- b) Submission of Assessment Tasks
- Students must hand in assessment tasks during the lesson for the subject in which the task is set.
 - Students may submit or perform an assessment only if they attend all of their lessons that day. (An exception to this is if you send your assessment task to school if you are unable to attend on the day a task is due).
- c) Absence on the day of an Examination/Test
Students will be required to complete a missed examination/test the **NEXT** time they have that subject (In some cases, a **SUBSTITUTE** test or alternative means of assessment, can be arranged). A medical certificate or letter to provide a sound **REASON** for the absence will be **ESSENTIAL** and must be given to the Head Teacher. An invalid reason for absence (or failure to see the Head Teacher) will result in a '0' being awarded for that examination/test.
- d) Absence on day an Assessment Task is Due
If a student is unable to attend school on the day a task is due, a parent or friend should submit the required task, or it should be submitted on the day prior to completion date. If this is not possible it is then the student's responsibility to see the teacher on the **FIRST** day of returning from an absence in order to submit the task.
- e) Late Submission of a Home Assessment Task
Late assignments/tasks will be penalised at a rate of 10% of the available marks, per day, for up to five days. Weekends will be included in these five days. If the assignment/task is not submitted after five days of the original due date, a zero mark will be awarded.

Example:

An assignment is due on Thursday. The assignment is worth 100 marks.

Thursday	Assignment not submitted	Loss of 10 marks (10% of the total marks available)
Friday	Assignment not submitted	Loss of a further 10 marks
Saturday		Loss of a further 10 marks
Sunday		Loss of a further 10 marks
Monday	Assignment not submitted	Loss of a further 10 marks
Tuesday	Assignment not submitted	Zero Mark Awarded

In extenuating circumstances, a written reason from the parents must be forwarded to the Head Teacher of the faculty as soon as the assignment is submitted. This will be considered, and a decision will be made.

f) Marking of Assessment Tasks

It is the student's responsibility to check the marking of any assessment task when it is returned. The marks for any task will be taken as **final** seven days after the task is returned, so a student **must indicate any error in marking before this**. A complaint about marking is not valid for a **later appeal** against an assessment.

g) Malpractice (plagiarism, copying, cheating, talking during an examination)/Non-Serious Attempt

i) In situations where it is established that malpractice has occurred then a '0' will be given for the task.

The Head Teacher in consultation with the class teacher will establish that malpractice has occurred. Parent/Carers will be advised in writing.

If a student can produce conclusive evidence that malpractice could not have occurred, an appeal may be lodged with the appeals committee in writing.

An interview with the student will follow and the decision made will be final.

If it is found that malpractice has occurred, no substitute task will be given.

h) Appeals/Appeals Committee

i) Any complaints about assessment procedures should be made in the first place to the class teacher. Further appeals may be made to the Head Teacher of the appropriate faculty and then to the school's Appeals Committee through the Deputy Principal in charge of the year group.

ii) The appeals committee will consist of:

i. The Deputy Principal in charge of the year group.

ii. The Subject Head Teacher.

iii. The Year Adviser.

iii) Appeals will be in writing on the appropriate form. See the Deputy Principal in charge of your year group for details or forms.

iv) Appeals process to be used:

i. Appeal upheld – work submitted, marked and results recorded.

ii. Appeal not upheld or no appeal – work submitted marked and recorded as '0'.

English Course Outcomes

- EN4-RVL-01 Uses a range of personal, creative and critical strategies to read texts that are complex in their ideas and construction
- EN4-URA-01 Analyses how meaning is created through the use of and response to language forms, features and structures
- EN4-URB-01 Examines and explains how texts represent ideas, experiences and values
- EN4-URC-01 Identifies and explains ways of valuing texts and the connections between them
- EN4-ECA-01 Creates personal, creative and critical texts for a range of audiences by using linguistic and stylistic conventions of language to express ideas
- EN4-ECB-01 Uses processes of planning, monitoring, revising and reflecting to support and develop composition of texts

History Course Outcomes

- HT4-1 Describes the nature of history and archaeology and explains their contribution to an understanding of the past.
- HT4-2 Describes major periods of historical time and sequences events, people and societies from the past.
- HT4-3 Describes and assesses the motives and actions of past individuals and groups in the context of past societies.
- HT4-4 Describes and explains the causes and effects of events and developments of past societies over time.
- HT4-5 Identifies the meaning, purpose and context of historical sources.
- HT4-6 Uses evidence from sources to support historical narratives and explanations.
- HT4-7 Identifies and describes different contexts, perspectives and interpretations of the past.
- HT4-8 Locates, selects and organises information from sources to develop an historical inquiry.
- HT4-9 Uses a range of historical terms and concepts when communicating an understanding of the past.
- HT4-10 Selects and uses appropriate oral, written, visual and digital forms to communicate about the past.

	TASK 1	TASK 2	WEIGHTING
	Research Task	Yearly Examination	
	Term 2 Week 3	Term 4 Week 3	
	HT4-1 HT4-2 HT4-5 HT4-7 HT4-9	HT4-3 HT4-4 HT4-6 HT4-9

Japanese Course Outcomes

ML4-CRT-01 Creates a range of texts for familiar communicative purposes by using culturally appropriate language

	TASK 1	WEIGHTING
	All About Me Information Poster	
	Term 4 Week 3	
	ML4-CRT-01	
TOTAL WEIGHTING	100	100

Mathematics Course Outcomes

MAO-WM-01	Develops understanding and fluency in mathematics through exploring and connecting mathematical concepts, choosing and applying mathematical techniques to solve problems, and communicating their thinking and reasoning coherently and clearly
MA4-ALG-C-01	Generalises number properties to operate with algebraic expressions including expansion and factorisation
MA4-ANG-C-01	Applies angle relationships to solve problems, including those related to transversals on sets of parallel lines
MA4-GEO-C-01	Identifies and applies the properties of triangles and quadrilaterals to solve problems
MA4-IND-C-01	Operates with primes and roots, positive-integer and zero indices involving numerical bases and establishes the relevant index laws
MA4-EQU-C-01	Solves linear equations of up to 2 steps and quadratic equations of the form $a\chi^2 = c$
MA4-LEN-C-01	Applies knowledge of the perimeter of plane shapes and the circumference of circles to solve problems
MA4-ARE-C-01	Applies knowledge of area and composite area involving triangles, quadrilaterals and circles to solve problems
MA4-VOL-C-01	Applies knowledge of volume and capacity to solve problems involving right prisms and cylinders
MA4-PYT-C-01	Applies Pythagoras' theorem to solve problems in various contexts
MA4-RAT-C-01	Solves problems involving ratios and rates, and analyses distance–time graphs
MA4-FRC-C-01	Represents and operates with fractions, decimals and percentages to solve problems

TOTAL WEIGHTING	30	30	40	100

Music Course Outcomes

- 4.1 Performs in a range of musical styles demonstrating an understanding of musical concepts.
- 4.3 Performs music demonstrating solo and/or ensemble awareness.
- 4.4 Demonstrates an understanding of musical concepts through exploring, experimenting, improvising, organising, arranging and composing.
- 4.6 Experiments with different forms of technology in the composition process.
- 4.7 Demonstrates an understanding of musical concepts through listening, observing, responding, discriminating, analysing, discussing and recording musical ideas.
- 4.8 Demonstrates an understanding of musical concepts through aural identification and discussion of the features of a range of repertoire.

SUBJECT: MUSIC

COURSE: YEAR 8

PDHPE Course Outcomes

- PD4-1 Examines and evaluates strategies to manage current and future challenges.
- PD4-2 Examines and demonstrates the role help-seeking strategies and behaviours play in supporting themselves and others.
- PD4-3 Investigates effective strategies to promote inclusivity, equality, and respectful relationships.
- PD4-4 Refines, applies, and transfers movement skills in a variety of dynamic physical activity contexts.
- PD4-5 Transfers and adapts solutions to complex movement challenges.
- PD4-8 Plans for and participates in activities that encourage health and a lifetime of physical activity.
- PD4-9 Practises self-management skills in familiar and unfamiliar scenarios.
- PD4-10 Uses interpersonal skills to effectively interact with others.

Science Course Outcomes

- SC4-7WS Processes and analyses data from a first-hand investigation and secondary sources to identify trends, patterns, and relationships, and draw conclusions.
- SC4-8WS Selects and uses appropriate strategies, understanding and skills to produce creative and plausible solutions to identified problems.
- SC4-9WS Presents science ideas, findings and information to a given audience using appropriate scientific language, text types and representations.
- SC4-10PW Describes the action of unbalanced forces in everyday situations.
- SC4-11PW Discusses how scientific understanding and technological developments have contributed to finding solutions to problems involving energy transfers and transformations.
- SC4-12ES Describes the dynamic nature of models, theories, and laws in developing scientific understanding of the Earth and solar system.
- SC4-13ES Explains how advances in scientific understanding of processes that occur within and on the Earth, influence the choices people make about resource use and management.
- SC4-14LW Relates the structure and function of living things to their classification, survival, and reproduction.

SUBJECT: SCIENCE

Technology (Mandatory) Course Outcomes

TE4-1DP	Designs, communicates and evaluates innovative ideas and creative solutions to authentic problems or opportunities.
TE4-2DP	Plans and manages the production of designed solutions.
TE4-3DP	Selects and safely applies a broad range of tools, materials and processes in the production of quality projects.
TE4-5AG	Investigates how food and fibre are produced in managed environments.
TE4-8EN	Explains how force, motion and energy are used in engineered systems.

SUBJECT: TECHNOLOGY MANDATORY

COURSE: YEAR 8

Visual Arts Course Outcomes

- 4.1 Uses a range of strategies to explore different artmaking conventions and procedures to make artworks.
- 4.2 Explores the function of and relationships between artist – artwork – world – audience.
- 4.7 Explores aspects of practice in critical and historical interpretations of art.
- 4.9 Begins to acknowledge that art can be interpreted from different points of view.

SUBJECT: VISUAL ARTS
