School Bytes Parent Portal and App

Sandon Public School uses School Bytes to assist with parent communication. School Bytes provides our school, and our families, with many benefits including:

- Instant messages to the Parent Portal (including push notifications) or via SMS message to your mobile
- Permission notes can be completed online, meaning no lost notes in school bags
- Payments for excursions and uniforms can be made online. You are also able to review past payments and Statements of Account. For some events, multiple part payments can be made allowing you to make payments when it best suits you.
- Student Absences can be explained via the Portal
- Changes to student details can done via the Portal
- View the school calendar to assist with planning for upcoming events
- Multiple email addresses per family can be setup to ensure no one misses out on important communications.
- Student Academic Reports can be accessed via the Portal.
- Digital forms are being added to the Parent Portal so parents can access uniform order forms, canteen menus, change of detail forms along with many other forms.

School Bytes Parent Portal Set Up

To register for the School Bytes Parent Portal, the email you use to sign up will need to match the email address that we have on the system for you. If you are using a different email address, an SMS verification code will be sent to the mobile number that we have on record for you.

Set Up Process

1. Use the link or the QR code to register for the parent portal.

<https://portal.schoolbytes.education>

2. Click on 'Create a new account'.
3. Enter your details into the required fields and then select 'create account'.

An email will be sent to the email address nominated so that you can verify your access to the email address. Once you have created your account, log in to the School Bytes parent portal.

You can now link your account to all students in schools that use the School Bytes platform. When linking a student, the system automatically matches the data you provide with details stored on the student's school profile.

4. Select 'Link other student' and search for Sandon Public School in the 'School name' field. Continue entering the students details and select 'Search'.

If all student information matches with parent information according to the student's official enrolment stored at the school, the system will add the student to the parent account automatically.

5. Continue adding any additional children that you have enrolled at Sandon Public School.

School Bytes Parent App

The School Bytes Parent App can be downloaded on the Apple App Store and the Google Play Store.

Apple App Store
