VISIT TO SHANNON CREEK DAM AND THE WASTE MANAGEMENT CENTRE

Our students had an amazing time exploring Shannon Creek Dam. They learned all about where our water comes from, how the dam was built. It was exciting for them to see the dam up close and understand how it helps provide clean water to our community.

Our final stop was the Grafton Community Recycling and Waste Centre. Here, the students got a firsthand look at how our waste is collected, stored, and carefully sorted to be recycled. It was a great opportunity for them to learn about the importance of recycling and how it helps protect our environment.

What is happening in the 1/2 classroom..

Our Year 1-2 explorers have been on a wild adventure learning all about lions! They've become mini researchers, hunting for facts, then creating amazing information reports about habitats, diets, and appearance. These masterpieces are now decorating our classroom walls and sparking some roarsome discussions! The end of Term 3 projects took us on a journey around Australia and the world!

From Western Australia's gorgeous beaches to historic French landmarks and the natural beauty of Jervis Bay - our little travelers shared such incredible projects! The classroom was buzzing with excitement as each student presented their knowledge and interesting facts. This term we've swapped our dancing shoes for paintbrushes! Our artists have been mastering shading and color blending techniques. You should see our colorful cactus gallery - such detail and creativity that brightens up our learning space! With a few more great things to come before the end of the term. Even with the year winding down, these determined learners are still working hard! We've been diving deeper into

reading comprehension and spelling through fun activities and our new tailored writing goals. So many happy faces as students reach their targets - their growing confidence is absolutely wonderful to see!

Can't wait to see what other amazing things these superstars accomplish before the year ends! ☀️
