

The Winmalee Medal

Strive to Achieve

The Winmalee Medal

The school aims to give high recognition to students who display commitment. We value extensive participation in curricular and extra-curricular activities. The Winmalee Medal recognises students' holistic achievements in a balanced and progressive framework.

To receive an award the student needs to **earn eight credits in at least four of the following categories with a maximum of three credits per category**. Some activities have a value of two credits. This encourages students to become involved in a variety of areas of school life in any academic year.

The categories include:

1. Academic Excellence/ Merit Program
2. Leadership
3. Community Service
4. Creative and Performing Arts
5. Sports Representation
6. Other

There are five steps in the award:

- Step One: Certificate of Achievement 1
- Step Two: Certificate of Achievement 2
- Step Three: Certificate of Achievement 3
- Step Four: The Winmalee Medal
- Step Five: The Principal's Medal

Students can complete two Steps per year. They can semesterise their achievements, completing two levels in 12 months, but students cannot double up on the activities within the same year. For example, students cannot count the SRC points twice, unless they decide to split their two points across the year, allocating one per semester, if eligible. Another example may be being a Regional/Zone Sport Representative - students would need to represent in two different fields each semester to count it twice. For example, Zone Athletics, and Zone Swimming could be counted as two separate activities.

The exception to counting an activity each semester, is the Highly Commended (RoSE Breakfast) and the Consistent Effort awards for Semester 1 and Semester 2 academic reports. For Semester 2, students who expect to receive the award can enquire before the release of invites to include this in their final application for the Winmalee Medal that year.

Once students have reached Step 4, they have achieved the Winmalee Medal and are eligible to apply for the Principal's Medal via a Future Leaders Project. Another way students can achieve the Principal's Medal is by achieving the Winmalee Medal twice. Students who achieved the Winmalee Medal twice (two full cycles), will automatically achieve the Principal's Medal.

The Principal's Medal - Future Leaders Project (Final Step)

The Principal's Medal is a progressive step from the Winmalee Medal. To achieve this honour participants will be required to complete two steps per year for four years or undertake a Future Leaders Project. This could be undertaken as an individual or as a team.

If undertaking a Future Leaders Project, students should aim to develop, implement and manage a community-based project that has a positive impact on the school, whilst nurturing the leadership qualities of the participants.

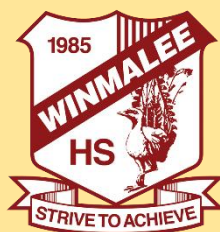

Students will propose their own project. The project must:

- Show sustained engagement (One term or equivalent)
- Be action based with positive outcomes
- Adopt an insightful and reflective approach

Students should submit a written proposal to the principal or staff representative including the following details:

- The objective or goal of the project
- The processes that will be required to succeed
- Details of people involved including a mentor or point of contact that will provide direction
For example: a teacher or community leader
- Outcomes and products of the project
- Timeline and dates

Students wanting to start a Future Leaders Project should see the Winmalee Medal Coordinator.
