

Energy Drink Procedure

Aim: At Yass High School we encourage students to make positive choices to allow them to develop into healthy young adults. We aim to achieve this through subjects such as PDHPE, Food Technology and Wellbeing lessons, and we encourage students to take control of making these decisions. In supporting students in developing this Yass High School has made the decision to ban energy drinks at school.

Procedure:

The details below outline the procedure that will be put in place for energy drinks:

1. If students have an energy drink, they will have it immediately confiscated.
2. A confiscated drink will need to be collected by a parent/carer.
3. It will be held by the deputy principal for one week, after which time it will be disposed of.
4. The incident will be recorded on Compass and two incidents will result in a lunch detention.
5. Further incidents will be managed under the [student behaviour policy](#).

Procedure Review

This policy will be reviewed annually, and changes may be implemented during the year should guidelines change.
